SATURDAY 10TH MAY 2014

Today's update covers the period between Sunday 4th May 2014 through to Saturday 10th May 2014. This week's update is taken up by our fourth and final look at the substitute comparisons.

Below is the list of teams who asked to be part of this comparison and their point's difference. If it is a positive number then you are scoring better with your subs in place. If it is a negative number you should have kept your original choices unless of course you were trying to finish bottom!!

The numbers in brackets, the first is your position if you hadn't used subs and the second is your actual position in the current FNL 2013/14 Table.

Before we leave the topic of the Substitutes, the team that benefited the most from their changes was Bruce's Bitzas who scored 986pts more with their subs. At the bottom Richard Losers did even better with his changes he ended up -1,151pts worse off if you like in his quest to finish bottom. Out of the 1,706 players in this season's FNL only 682 of you actually made any changes.

Before I finish this week, a quick look at the FNL 2013/14 Main Table and who I might be naming as our end of season winners in our final update of this season next week. In total we have 5 cash prizes up for grabs next week. The top 4 teams will share £3,000 between them with our winner getting £2,000. The 5th prize is for finishing bottom and that wooden spoon is worth £100. Up The Bucks is in pole position going into this final week and they have a lead of 64pts, the top ten is only covered by 401pts. At the bottom we have Barney's Clowns with 5,819pts and it is going to take some effort to catch them as they are 308pts adrift and are looking firm favourites for that £100 Wooden Spoon.

Here are the Top 5 teams who have scored the most points over the past 7 days.

1. Sister Rosemary	124pts	(871st)
2. N.C.I. Hotshots.....	119pts	(134th)
