

Weekly update

Up to and including
SATURDAY 24TH JANUARY 2015

Today's update covers the seven day period between Sunday 18th January 2015 through to Saturday 24th January 2015.

The January 2015 Manager of the Month has only 7 days to run as I write this. Leading the way is The Bash with 1,719pts, they have only a 7pt lead over second placed Roys Wanderers and they are 32pts ahead of third placed Ruperts All Stars. The top ten this month is covered by 77pts. As always the league leader's bonuses will play a major part in deciding who will grab the cash. At the bottom this month were £50 is up for grabs there is 45 points covering the bottom three. Sitting at the bottom is Joshua Jewels with 491pts they are 24 points adrift of Bruces Anchors and 45pts adrift of third from bottom Compo & Nora. Before I finish on this subject thanks to one of our FNL competitors I have discovered a slight mistake in the January 2015 Manager of the Month calculations. The subs that you have all brought in were not registering in the Manger of the month side of things. That has now been rectified and now everything is correct.

Over the last couple of FNL seasons I have run a substitution comparison for you. Where once a month I let you know where you would have been if you hadn't made those changes. Would you have been better off or did you make the right decision bringing in those changes. If you would like your team to be part of this please get in contact with the FNL Helpdesk.
