

Weekly update

Up to and including
SATURDAY 20TH FEBRUARY 2016

Today's update covers the seven-day period between Sunday 14th February 2016 through to Saturday 20th February 2016.

As you are reading today's update we are only one day away from the end of February 2016. That means we only have a three months of FNL 2015/16 left to go. Where has the season gone? I will take a look at the runners for the February 2016 Manager of the Month in next week's update.

So I thought today I would take a look at the main FNL 2015/16 table. Leading the way is Pargyle who have so far this season accumulated 16,317pts. They are 58pts ahead of second placed The Best Team and 87pts ahead of the third placed Meat Fan City 2. The top ten is covered by 256pts. The interesting thing about our leader Pargyle is that he hasn't made any substitutions, so it will be interesting to see if he can hang on to that top position come the end of the season.

At the bottom where of course there is £100 up for grabs if you can finish bottom. It is a little tighter at the bottom. M.W. Flops are in bottom spot with 6,166pts they are only 12pts adrift from their nearest rival Just Ros. The bottom five is covered by only 50pts and the bottom ten is covered by 220pts.

Finally, if you would like to be included in next month's substitute comparison article then please contact the FNL Helpdesk.
