

# Weekly update

Up to and including  
SATURDAY 11TH MARCH 2017

Welcome to the latest update of Fantasy Non-League 2016/17. Today's update covers the seven-day period Sunday 5th March 2017 through to Saturday 11th March 2017.

In today's update, we take our second look of the season at the substitute comparisons. What I have done here is I have kept the original spreadsheet without any changes on it and that is running alongside the main FNL spreadsheet with the subs activated. That means I can tell you how you would have done if you hadn't made any changes at the turn of the year.

The figure after your team name will be either a plus or a minus which will be the figure that tells you whether you are better off or worst off because of your changes.

Ashburton Town +477pts, Ashburton Villa +63pts, Silver Fox Nikers +443pts, High Flying Harriers +257pts.  
Hell's Harriers -421pts, Ashburton Angels +330pts, Ashburton Sports -17pts, Ashburton United +416pts. Ashburton Rovers +191pts, Ashburton Moor +115pts, Ashburton Argyle +336pts, Jamelgina FC +432pts.  
Jo-Dea United 0pts.

Ten weeks have now passed since your substitutions kicked in and the team that has benefited the most from their substitutions is Chris From Cov who are +936pts better off. At the other end of the scale the team that has the highest negative score since making their changes is Chunkie Grandma who are -501pts worse off.

On the team front the top team in each league since 1st January 2017 when your substitutions kicked in is as follows.

National League Premier – Lincoln City 440pts, National League North – AFC Fylde 185pts,  
National League South – Ebbsfleet Utd 262pts, Evo-Stik Northern Premier – Blyth Spartans 335pts  
Ryman Premier – Billericay Town 270pts, Evo-Stik Southern Premier – Chippenham Town 263pts,
