Up to and including
SATURDAY 8TH APRIL 2017

Welcome to the latest update of Fantasy Non-League 2016/17. Today's update covers the seven-day period Sunday 2nd April 2017 through to Saturday 8th April 2017.

In today's update, we take our third look of the season at the substitute comparisons. What I have done here is I have kept the original spreadsheet without any changes on it and that is running alongside the main FNL spreadsheet with the subs activated. That means I can tell you how you would have done if you hadn't made any changes at the turn of the year.

The figure after your team name will be either a plus or a minus which will be the figure that tells you whether you are better off or worst off because of your changes.

Ashburton Town +644pts, Ashburton Villa +90pts, Silver Fox Nikers +484pts, High Flying Harriers +361pts.
Hell's Harriers -481pts, Ashburton Angels +344pts, Ashburton Sports -37pts, Ashburton United +647pts. Ashburton Rovers +246pts, Ashburton Moor +206pts, Ashburton Argyle +490pts, Jamelgina FC +555pts.
Jo-Dea United +3pts.

Just over three months have now passed since your substitutions kicked in and the team that has benefited the most from their substitutions is Chris From Cov who are +1,260pts better off. At the other end of the scale the team that has the highest negative score since making their changes is Bruces Bitzas who are -597pts worse off.

On the team front the top team in each league since 1st January 2017 when your substitutions kicked in is as follows.

National League Premier – Lincoln City 545pts, National League North – AFC Halifax Town 240pts,
National League South – Ebbsfleet Utd 332pts, Evo-Stik Northern Premier – Blyth Spartans 472pts
