Up to and including
SATURDAY 6TH MAY 2017

Welcome to the latest update of Fantasy Non-League 2016/17. Today's update covers the six-day period Monday 1st May 2017 through to Saturday 6th May 2017.

In today's update, we take our fourth and final look of the season at the substitute comparisons. What I have done here is I have kept the original spreadsheet without any changes on it and that is running alongside the main FNL spreadsheet with the subs activated. That means I can tell you how you would have done if you hadn't made any changes at the turn of the year.

The figure after your team name will be either a plus or a minus which will be the figure that tells you whether you are better off or worst off because of your changes.

Ashburton Town +731pts, Ashburton Villa +143pts, Silver Fox Nikers +611pts, High Flying Harriers +404pts.
Hell's Harriers -561pts, Ashburton Angels +466pts, Ashburton Sports -6pts, Ashburton United +749pts. Ashburton Rovers +415pts, Ashburton Moor +314pts, Ashburton Argyle +548pts, Jamelgina FC +697pts.
Jo-Dea United +10pts.

Just over four months have now passed since your substitutions kicked in and the team that has benefited the most from their substitutions is Chris From Cov who are +1,491pts better off. At the other end of the scale the team that has the highest negative score since making their changes is Bruces Bitzas who are -767pts worse off.

On the team front the top team in each league since 1st January 2017 when your substitutions kicked in is as follows.

National League Premier – Lincoln City 641pts, National League North – AFC Fylde 331pts,
National League South – Ebbsfleet Utd 437pts, Evo-Stik Northern Premier – Blyth Spartans 542pts
Ryman Premier – Dulwich Hamlet 446pts, Evo-Stik Southern Premier – Chippenham Town 454pts,
The Mixture – Salisbury FC 475pts.

Bottom club from the whole FNL league structure since the subs kicked in is – Skelmersdale Utd (Evo-Stik Northern Premier) with -86pts.
