

# Weekly update

Up to and including  
Saturday 7th October 2017

Welcome to the latest update of Fantasy Non-League. Today's update covers the period Sunday 1st October 2017 through to Saturday 7th October 2017.

As we are now moving into the month of October 2017 I thought I would take my first look at how the main FNL table is taking shape. We are now two months into the season and like other seasons we are going to have a great ride.

ShipsUpStreets are currently leading the main FNL 2017/18 main table. So far, they have scored 6,686pts. They are a healthy 113pts ahead of second placed Up The Bucks! and a 177pts ahead of third placed Rock Rangers. The top ten is currently covered by 244pts and the top 50 is covered by 381pts. Last season's champion Carry On Dick has made a very quiet start. He is currently sitting in 109th position with 6,155pts and is at the moment 531pts of the early pacesetters.

At the bottom which is to be honest my favourite part of FNL because I believe it is the hardest to win. Corrie Again are in bottom place with 1,236pts. They are only 14pts adrift from their nearest rival Rothwell Losers. The bottom ten is covered by 143pts. Last season's wooden spoon winners Richard's Losers have not started well they are currently in 1,476th position with 1,602pts that is a massive 366pts off bottom spot.

Finally, FNL Mini-Leagues are now on-line. Remember if there is a number of you competing against each other and you would like your own FNL Mini-League then please get in touch with the FNL Helpdesk. It won't cost you anything.
