**WEEKLY
UPDATE**

SAT 14TH TO SAT 21ST

Welcome to the latest update of Fantasy Non-League 2019/20. Today's update covers the period Sunday 15th September 2019 through to Saturday 21st September 2019. In today's update, you learn how you can discover your points total and place in this season's competition if you don't have access to the internet. Also, news on FNL Mini-Leagues.

A final reminder as we fast approach the end of September, if you can't find

your team or if I have miss-spelt it please get in touch with the FNL Helpdesk (Not the paper please). Can I however ask you not to get in contact until after you have seen the full table on-line. The reason I

ask you to do this is because we have just over 1,200 players and the paper does not have the space to cover you all. For example, last Sunday the paper put in a full page of the FNL competition and that with the team totals table as well left room for only 327 players plus the bottom ten.

If you have no access at all to the internet, I am happy to supply a text service every three weeks with your po-

sition in the FNL table and the points you have scored. Please can I ask that as I do this competition all by myself that you only request the text service if you have no access to the internet at all. It is not possible for me to do hundreds of texts. If you would like to take advantage of the text service, please send a text to the FNL Helpdesk with team name and surname please.

Over the last few years I have run a number of FNL Mini-Leagues. These mini leagues are updated every three weeks and they appear on my own fantasy website.

So, if there are a number of you involved in the fight for FNL supremacy then why not ask me to run you a mini league. I do it free of charge. An example of what I mean is I have a couple mini leagues that I have run for a few years now they are a set of St Albans City supporters and Havant & Waterlooville supporters. If you would like to have your own FNL Mini-League, then again please get in touch with the FNL Helpdesk.
