SATURDAY 16TH NOVEMBER**

Welcome to the latest update of Fantasy Non-League 2019/20. Today's update covers the period Sunday 10th November 2019 through to Saturday 16th November 2019.

In this week's update we are going to take a quick look at the main FNL 2019/20 table and see who is leading the way as move towards the transfer window which of course kicks in at the end of next month.

The new negative scoring system is certainly making it interesting this season with the leader changing hands nearly every week. It is not going to be easy this season to predict who is going to win the 2019/20 Fantasy Non-League competition.

Leading the way this week is Chunkie Grandpops with

By Ian White

7,351pts they are 71pts ahead of second placed Hawks USA and 82pts ahead of third placed Addlestone Card. The top ten is currently covered by only 242pts and the top 50 is covered by only 498pts.

At the bottom we have Calamity Keir with only 284pts, they are 108pts adrift from their nearest rival Trapdoor Utd. The bottom ten is covered by 631pts which means it is not quite so tight at the bottom.

In next week's update I will take a quick look at who is in the running for the November 2019 Manager of the Month and I will also be releasing the details on how you can make your substitutions as we fast approach that time in the competition.
