

FANTASY NON-LEAGUE

WIN £5000

2019/20

WEEKLY UPDATE

UP TO AND INCLUDING SATURDAY 18TH JANUARY

Welcome to the latest update of Fantasy Non-League 2019/20. Today's update covers the period Sunday 12th January 2020 through to Saturday 18th January 2020.

You have now settled into your new setup if you made the changes you requested and if you sent in changes and you don't have [S] after your team name please get in touch. However, you only have until the end of this month to do this.

The main FNL table looks as though it may have settled down a little. Chunkie Grandpops is leading the way and has opened up a 210pt lead over second placed Asas Hornets and they are 281pts ahead of Firefly's Flyers. The top ten is now covered by 421pts so it will be interesting to see if we are finally starting to see a potential winner.

At the bottom we have

By Ian White

two teams in the frame who still haven't reached the 1,000pt mark. At the bottom is Calamity Keir with 656pts and they are 181pts adrift of their nearest rival Trapdoor Utd. The bottom ten is covered by 1,031pts.

I will again be running the substitution comparison exercise once a month. Basically, I have saved a copy of the main FNL spreadsheet on the 31st December 2019 before I made your changes. So that saved spreadsheet will run alongside the spreadsheet with the subs activated and we will be able to tell whether or not you made the correct decision to use your subs.

If you would like to be included in the sub comparison then please contact the FNL Helpdesk.
