SUNDAY 2ND AUGUST

Welcome to the final update of Fantasy Non-League 2019/20. Today's update covers the period Sunday 15th March 2020 through to Sunday 2nd August 2020. This season's Fantasy Non-League is finally coming to an end after the National Premier Promotion Final last Sunday. I hope you are all well and safe and hopefully very soon looking forward to seeing some live football. This season's FNL has run for a whole calendar year and finally we can draw it to a close.

So, what I have I done. Well I decided that the teams that were leading their leagues on Saturday 14th March 2020

By Ian White

would be named the winners and the teams in bottom spot would get the relegation bonuses. This format also includes all the leagues below the National League even though they were declared null and void. There is no Cup End of Season Bonus as none of the cup competitions featured in FNL were finished to a conclusion.

Also, there is no April 2020 Manager of the Month as no games were played during that month. However, we have decided to award the March 2020 Manager of the Month as half of that months games were played.
