SATURDAY 19TH DECEMBER**

Welcome to the latest update of Fantasy Non-League 2020/21. Today's update covers the period Sunday 13th December 2020 through to Saturday 19th December 2020.

This week we are going to take another look into the main FNL 2020/21 league table as we move into 2021. It certainly has been a tough year for everyone and that includes Fantasy Non-League. It will be really interesting to see if we make it to the end of the season.

So, leading the way at the moment is OIL BEEF HOOKED with 5,232pts they are currently 53pts ahead of second placed HARRISON WBA and

79pts ahead of third place CHASING SHADOWS. The top ten is currently covered by 294pts and the top 50 is covered by 589pts which is not a massive number of points at this stage of the competition.

At the bottom DEE-JAY LOSERS have -590pts and that is quite a incredible total. They are 221pts adrift from BACK OF THE NET and the bottom 25 is covered by 672pts. So at the bottom of the league, it is beginning to look like we have a settled bottom player and it is up to the rest of you to get down there with them.
